

Counter Base

Unpack all of the components of the counter. Take the base and place it on the desired location.

Steel Rods Support

Take the 2 steel rods and partially screw them into the base.

Tambour Base

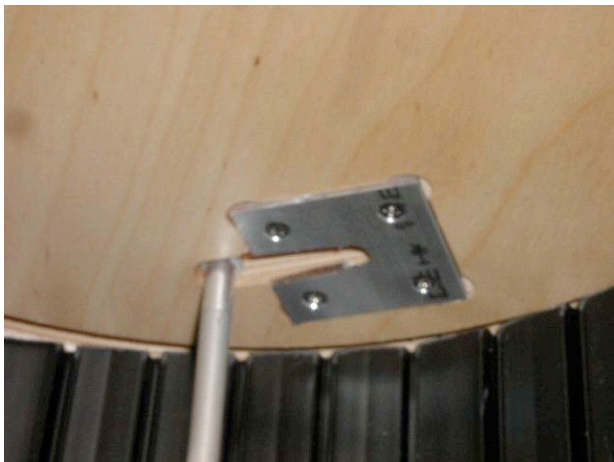

Take the tambour and place it into the groove of the counter base.

Counter Top Placement

Take the counter and place it on top of the tambour. The tambour slides into the groove.

Locking Steel Rods To Counter

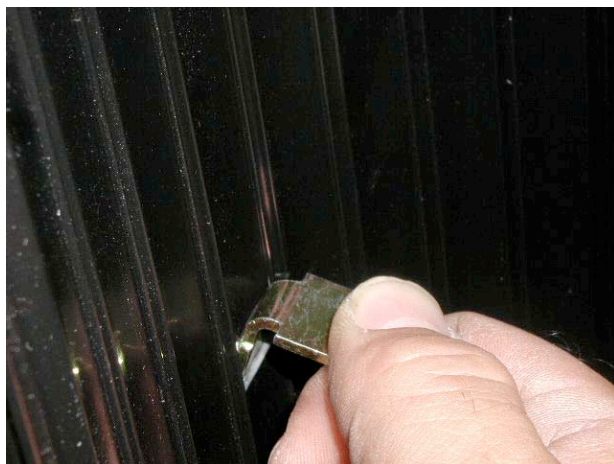

Slide top of the rod into bracket under counter top, make sure the tambour is fully seated into the grooves of the base and counter top.

Securing the Steel Rods

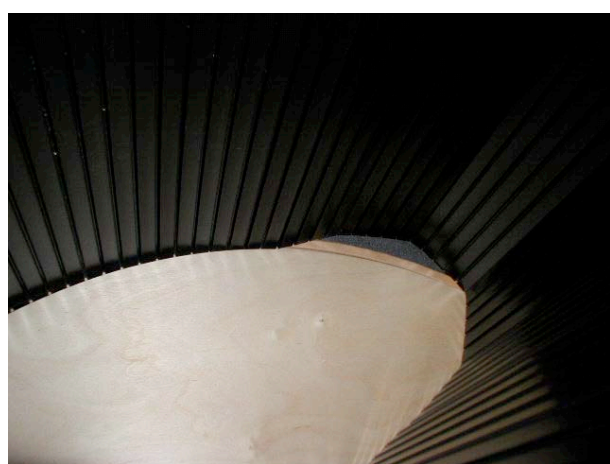

Tighten rods snugly by turning them clockwise, check counter again to make sure the tambour is fully seated top and bottom.

Inner Shelf Options

Once tambour is fully seated and secure into the channel, install the 4 "L" brackets to support the shelf. (Only if inner shelf option is purchased)

Smaller Tambour

Take the small tambour and place it into the groove on the top of the counter top.

Small Counter Top

Place small counter top onto the top of the small tambour. Make sure that the tambour goes into the groove of both counters.

Finish ET3 Counter

ET3 Counter is complete.
